7. BAGGAGE

A. Carry-on Baggage

- (1) **General.** Red Way, Fly Next LLC, and Global Crossing Airlines, Inc., in its sole discretion, will determine whether any Baggage, because of its weight, size, contents, or character, may be carried in the Passenger cabin of the aircraft. All carry-on Baggage must be stowed underneath a seat or in an overhead bin.
- (2) **Responsibility of Passenger.** Carry-on Baggage is the sole responsibility of the Passenger.
- (3) **Allowable Carry-on Baggage.** In accordance to the fare rules outlined at the point of sale on www.goflyred.com, and in Section J, passengers are restricted to one item of carry-on Baggage (e.g., roller bag, garment bag, tote bag,) not to exceed 22 pounds / 10 kilograms and not to exceed external dimensions of 9" x 14" x 22" / 23 cm x 36 cm x 56 cm plus one smaller personal-type item (e.g., purse, briefcase, laptop computer case, backpack, small camera), provided that such items are capable of being carried onboard the aircraft by one Passenger without additional assistance, unless the Passenger requires assistance due to a disability, and are capable of being stowed under a seat or in an overhead compartment. Sizing boxes with 9" x 14" x 22" dimensions are located at many of Global Crossing Airlines, Inc.'s curbside check-in locations, ticket counters, departure gates, boarding locations, and on many jet bridges. Red Way, Fly Next LLC, and Global Crossing Airlines, Inc. reserves the right to further restrict the number of carry-on items.
 - (i) A roller bag that otherwise would meet the 9" x 14" x 22" / 23 cm x 36 cm x 56 cm dimensions if the wheels were removed will be accepted.
 - (ii) Oversized articles of reasonable carry-on size that protrude from only one side of the sizing box and, because of their fragile nature, would be at greater than normal risk of damage if carried in the cargo hold (e.g., small musical instruments, blueprints, map tubes, fishing poles, artwork, media cameras/video equipment) are considered personal-type items and may be carried in the Passenger cabin if remaining onboard space permits and the item fits in an overhead bin without depriving other Passengers of sufficient overhead bin space.
- (4) **Outerwear.** In addition to the carry-on Baggage allowance provided herein, a coat, jacket, wrap, or similar outer garment may be carried onboard the aircraft.
- (5) **Instruments and Equipment.** The following conditions apply to acceptance for Carriage in the cabin of large musical instruments and electronic, computer, audio/video, or other equipment and parts thereof, the size or shape of which prevents such instruments or equipment from being handled as normal carry-on Baggage:

- (i) The instrument or equipment must be contained in a case.
 - (ii) A reservation must be made for the instrument or equipment at a charge no greater than the lowest fare for each seat used.
 - (i) The instrument or equipment must be secured in the first window seat aft of a floor to ceiling bulkhead.
- (6) Red Way, Fly Next LLC, and Global Crossing Airlines, Inc. at its sole discretion, will not transport items of carry-on Baggage that it determines may be harmful or dangerous to a Passenger(s), the flight crew, or the aircraft.
